SKILLS

Content Writing

Front End(CSS, HTML, JavaScript)

Back End (Node.js, Express, SQL, MongoDB)

Laboratory Methods

Science Research

Literary Research

SUMMARY

I am a science enthusiast, literary lover, and new full stack developer. I am proficient in many technologies, but specialize in the MERN stack. I addition to my coding experience, I have a background in both scientific and literary research.

WORK EXPERIENCE

NURSING ASSISTANT

St. John's Riverside Hospital

April 2020 - July 2020

- Assisted nursing staff during the COVID-19 pandemic.

LITERARY INTERN

America Media

May 2019- September 2019

- Created original content for online and print publications.
- Assisted with research.

AUTOPSY, TOXICOLOGY, & HISTOLOGY LAB ASSISTANT

Erie County Medical Examiner's Office

June 2015 - September 2015

- I assisted the forensic pathologists with autopsies including recording weights and assisting with simple procedures.
- I assisted the toxicology and histology labs collecting and storing specimens, reviewing lab procedures, and stored specimens for future review.
